## **Itinerary**

Answers In Genesis (AIG) is the organization behind the operation of both the Creation Museum and the newly opened ARK Encounter. The Creation Museum located in Petersburg, KY looks at the formation of the earth based on the biblical text. It explains the reasoning how it was possible for man and dinosaurs to inhabit the earth at the same time. This museum takes a lot of reading to fully comprehend the exhibits. The ARK Encounter located down the road in Williamstown, KY just opened in July of 2016. AIG has constructed an ark to scale according to measurements given in the bible. This exhibit does a wonderful job of explaining how Noah and the group aboard the Ark were able to take care of the animals and survive the flood. Both these exhibits have generated a lot of discussion (both positive and negative) between believers and non believers, but these exhibits compare many differences between believers and non believers.

As long as we are in the neighborhood, let's enjoy some of America's favorite pastimes! A little baseball at the Louisville Slugger Factory and Museum, the horse industry at Churchill Downs and some good old country music as the Grand Ole Opry. We encourage you to check out this activity filled tour. **This tour requires an extensive amount of walking.**
